Executive Support: Alky YU and John MA

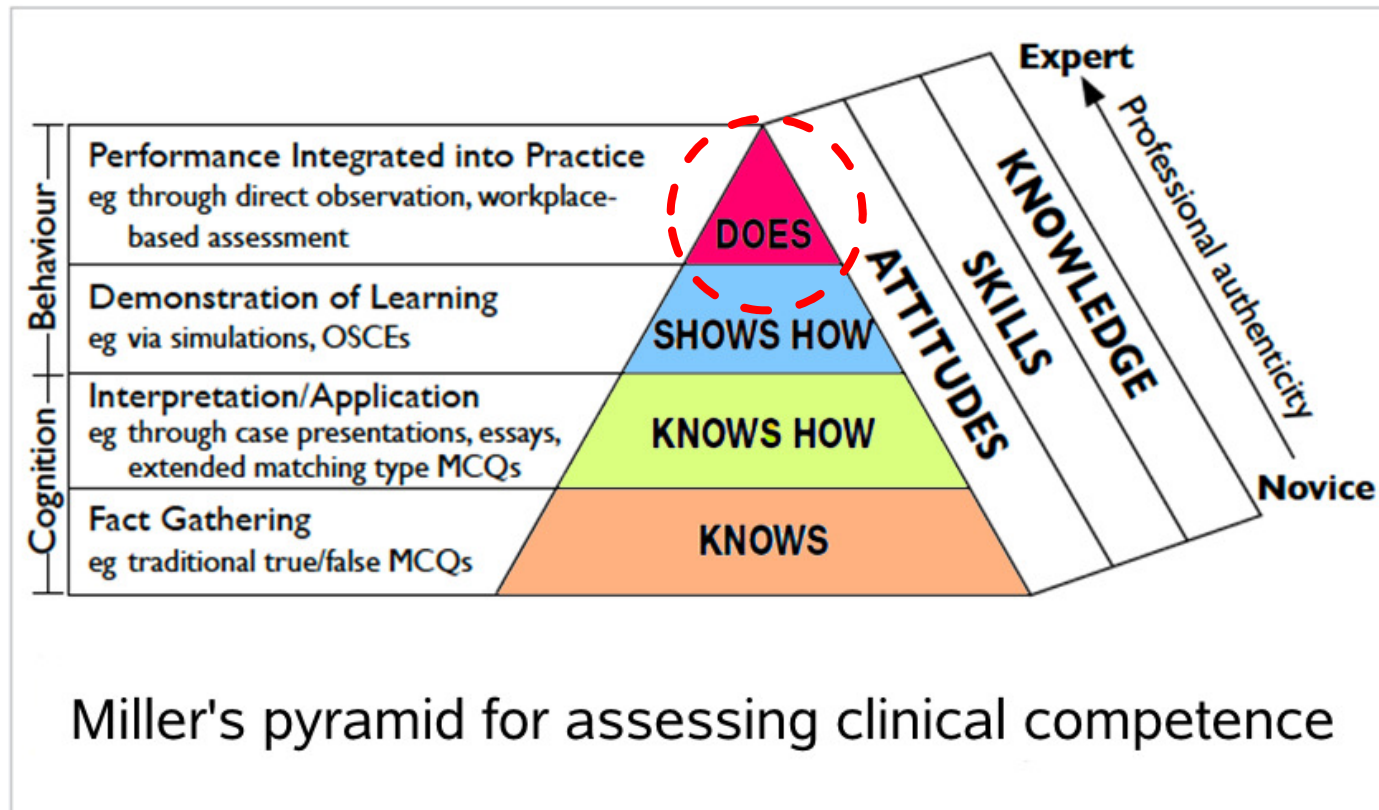

Segments of HKCFP Exit Examination

Consultation Skills Assessment (CSA)

Consultation Skills Assessment (CSA)

It's only in the **DOES** triangle that the doctor truly performs !

Consultation Skills Assessment (CSA)

- ▶ ? LAP as marking scheme for CSA
 - ▶ LAP coding sheets are intended for examiners' reference ONLY on articulating strengths and weaknesses
 - ▶ It is NEVER used as a checklist to scrutinize against the candidate's performance
- ▶ **Common causes for failure**
 - ▶ Unnecessarily prolonged consultations
 - ▶ Lack of discrimination in problem solving
 - ▶ Inclusion of irrelevant details
 - ▶ Disorganized interview and management

Practice Assessment

Practice Assessment

- ▶ *“ The most frustrating part for candidates is the submission of 300 medical records ...”*
 - ▶ *The ideal situation should be a random sampling from ALL medical records of patients ever seen by the candidate during the years of higher training*
 - ▶ *The number ‘300’ is based on a sample size calculation to achieve a reasonable (5% error) precision*
- ▶ *“Why not assessing computer records directly ?”*
 - ▶ *Encountered objections because of concerns on patient personal data protection and technical problems*
 - ▶ *Some candidates use manual medical records and to align the method of assessments, ALL candidates are thus required to present hard copies of medical records*

Research/ Clinical Audit Segment

Research/ Clinical Audit

- ▶ *“ Research segment is much more difficult ...”*
 - ▶ *Research and clinical audit are alternative options for candidates to choose freely*
 - ▶ *The passing rates in both assessments are similar*
 - ▶ *We fully respect the candidate’s choice on what he/ she thinks is the easiest for him/her*

Research & Clinical Audit Presentation @ HKPCC

From Full Exit Examination 2019 onwards, presentation at Research & Clinical Audit Forum will **become a prerequisite** for the Application of Exit Examination.

Your Ultimate Professional Examination

~~▶ Not difficult to prepare~~

▶ Be prepared

▶ Prepare well

The slide features decorative green geometric shapes on the left and right sides. On the left, there is a vertical green shape that tapers to a point at the bottom. On the right, there is a more complex green shape composed of several overlapping, semi-transparent layers, creating a layered effect. The text "Thank You !!!" is centered in the middle of the slide in a green, sans-serif font.

Thank You !!!
