PRESIDENT'S MESSAGE (DR. DONALD K T LI)

The Hong Kong College of Family Physicians, formerly known as the Hong Kong College of General Practitioners was established in July 1977. This year we celebrate our 25th Anniversary. During the past quarter of a century, our College strived to improve the quality of primary care in Hong Kong through the development of Family Medicine. I take this opportunity to pay tribute to all those who took bold steps to establish general practice as an academic discipline as well as a specialty. I am happy also to report health authorities of the Hong Kong SAR government finally recognizes that the effectiveness of primary medical care will be enhanced by the promotion and adoption of Family Medicine practice, recognized as a specialized discipline of medicine that provides primary, continuing and comprehensive care to an individual and the family in their own environment.

Unfortunately, our joyous celebrations were marred by the SARs incident in Hong Kong. The whole medical community was under tremendous strain to fight this unknown and severe infection. Primary care doctors carried out the difficult task of being gate keepers to the overloaded healthcare system in Hong Kong. Since there was no previous experience in the management of SARs, little support for doctors to meet this diagnostic challenge was available. Nonetheless with the help of experts around the world, our College managed to launch guidelines for primary care doctors on our Web site relatively early during the epidemic. In September, the seminar on "SARs revisited" provided primary care doctors an opportunity to share their experience in managing SARs patients as well as prepare themselves for the diagnostic challenge of fever patients during the forthcoming winter. Results of a survey conducted by our College which reported the practice and feelings of primary care doctors during the SARs episode as well as how SARs affected their consultation were also presented.

Major Boards and Committees underwent policy and manpower review this year. With the increasing number of trainees and new members, our College needed to plan strategically to cater for their needs. Our hopes and aspirations are finally in sight as we anticipate a new force of family physicians serving the community of Hong Kong. Without the dedication of all our members and fellows we would not be able to make this dream of our forefathers who have worked relentlessly come true.

HON. SECRETARY (DR. J.T.N. CHUNG)

This year marks the 25th anniversary of the founding of the College and this milestone was celebrated with a series of events in March. First, there was a Trainers Workshop held in collaboration with the Royal New Zealand College of General Practitioners. This workshop provided a much needed opportunity for trainers in the College Vocational Training Programme to share experiences and acquire skills to become more effective trainers. This was followed by the annual conferment ceremony which on this occasion was held in conjunction with the Hong Kong College of Community Medicine. This represented a first conjoint conferment ceremony among member colleges of the Hong Kong Academy of Medicine. The ceremony was attended by a number of important Hong Kong and international guests from both colleges. In conjunction with the conferment ceremony was a scientific meeting of the College. This was the first academic conference the College had held since the WONCA World Conference in 1995. The series of celebrations was concluded with a round table discussion on Family Medicine Training with a number of family physicians from the Asia-Pacific region and Hong Kong.

This year also marks the introduction of the course in Diploma in Family Medicine. The Diploma in Ultrasound also sees its second intake of students.

Other activities in the College continue to provide education and training in family medicine. The Board of Education continues its busy schedule in medical education. The Board of Vocational Training and Standards now manages a record number of trainees. The Board of Examinations and Assessment deals with a record number of candidates. The Editorial Board has put the College journal online. The Research Committee has produced a number of research projects.

The College remains in good financial situation which has allowed the College to expand its secretarial services to the old premises in Wanchai.

The College has felt the impact of the SARS outbreak like the rest of the Hong Kong community. First, educational functions had to be postponed or canceled. Second, many Hospital Authority vocational trainees were deployed to perform SARS related medical duties thus experiencing disruption in their training programmes. This caused much anxiety and uncertainty among them. The College felt it necessary to step in to protect their interests and proposed to the Hospital Authority a number of remedial measures. It is gratifying to report that a satisfactory consensus has been reached.

Readers will find detailed reports from the various boards and committees in this booklet and it is hoped that they will share in the delight, energy and dedication from members which has gone into making this another successful year for the College.

It remains for me to thank the Secretariat for their hard work and Miss Kris Lam, Executive Manager, for her resourcefulness and able leadership.

CHAIRMAN MESSAGE

The major achievement of the Board this year was the successful launching of the Diploma of Family Medicine in May, 2003. This is a one year part-time course with Distance Learning Theoretical modules and Local Practical modules. The objectives are to provide an alternative pathway for teaching quality family medicine to primary care doctors and to prepare young medical graduates for good quality general practice. The Distance modules are offered through the support of The Department of General Practice, Faculty of Medicine, Monash University, whereas, the clinical modules are solely organized by the Board with structured seminars, practical workshops and bedside clinical attachments. The aim is to provide a practical, structured and yet flexible mode of teaching which could enhance the attitude, knowledge and skills of the attendants. The Board made a scientific presentation "A New Voyage to Postgraduate Family Medicine Learning in Hong Kong" at the 25th Anniversary Scientific Meeting of the College in preparation for the launching of the Course. There was an overwhelming response from our members but only thirty-seven doctors could be admitted into the course because of limitations on bedside teachings after the SARS crisis. The Board was sorry for turning down a lot of applicants.

As in the past years, the Board organized a variety of educational activities tailored to the needs and demands of our members. In addition to the usual luncheon scientific meetings, annual medical updates on different specialties were organized all round the year. However, due to the unexpected SARS incident, most of the meetings in the early part of the year were cancelled. The subsequent crowding together and over-booking of these functions in the latter half of the year caused much inconvenience to our members. Three new updates namely, Nephrology Update, Infectious Disease Update, and Traditional Chinese Medicine (TCM) Update were organized this year, in addition to the other regular updates in Dermatology, ENT, Gynaecology, Ophthalmology, Paediatrics, Psychiatry, and Surgery. The attendance of these updates was overwhelming. The Board wished to thank those members who returned feedback questionnaires after each lecture/update. Their comments were valuable for planning new topics and meeting their learning needs. The submission of CPD logs of lectures/seminars by members were gaining popularity and the responses were most encouraging.

The Assessment Enhancement Course for helping members to prepare for the Conjoint Fellowship Examination was organized again. Many ex-attendants of the Course joined the Board as new tutors to help their colleagues after passing the Fellowship Examination. This spirit and support among colleagues were most rewarding to all.

Annual Refresher Course, our major year-end event, was again well received by members. Again, thanks to the active feedbacks from members, valuable opinion and suggestions were collected and implemented.

Clinical Hospital Attachments were organized in ENT, Geriatrics, Paediatrics and Orthopaedics. All these attachments were well attended.

The Certificate Course in Internal Medicine co-organized with The Hong Kong College of Physicians, was suspended this year due to the exhaustion of our hospital colleagues in combating SARS. The Board planned to re-organize the course in the coming year.

The second Diploma Course in Medical Ultrasound organized with The School of Professional and Continuing Education of University of Hong Kong (HKU SPACE) was successfully launched again. The course offered a precious opportunity for general practitioners to learn both knowledge and practical skills of medical ultrasound.

Thanks to the unfailing support of Dr. Cheng Chun Ho and Dr. Pun Chiu On, our Cardiologist friends and teachers, CPR training workshops and examinations were organized as usual. Instructor workshops for up-keeping standards and recruiting new instructors were also organized. To prevent cross infection, Ambubag was used in place of mouth to mouth resuscitation this year because of SARS.

There were 53 Small Discussion Groups registered with the Board. As in last year some groups actively participated in writing up local management protocols of common diseases and earned extra CPD credits.

Videocassette viewing sessions were arranged at convenient time and venues to members as in the past years.

Community-wise, the Board collaborated with The Hong Kong Thoracic Society, American College of Chest Physician (HK and Macau Chapter) and Hong Kong Lung Foundation Ltd. in the participation of the first annual World COPD Day (November 20, 2002) and in the promotion of Global Initiative for Chronic Obstructive Lung Disease (GOLD) program to increase awareness and early detection of this debilitating disease among general public and health care professionals.

Similar to previous years, abstracts submitted by speakers in luncheon lectures and seminars could be accessed at the Board of Education Bulletin in the College website. This provided an alternate route of learning for members who could not attend these meetings.

At the time of writing the annual report, the College planned to organize a multi-disciplinary SARS Revisited seminar - "While we cannot rule out any recurrence, we can prevent the consequences", to prepare our members for a possible combat with this deadly infectious disease again in the coming winter.

I was indebted to all my colleagues in the Board for their efforts, inventiveness and dedication in helping to organize the various educational activities. I would also like to thank the Council and the secretarial staff for their full support. In addition, we had to thank all sister Colleges, Hospital Departments, Department of Health, Universities and Pharmaceutical Sponsors for supporting our various educational activities.

Self-Assessment Correspondent Programme

In addition to the MCQ paper sent out monthly with the College Journal, members may subscribe for the "CHECK" Programme.

Cardiopulmonary Resuscitation (CPR) Training

With the unfailing support of the Hong Kong College of Cardiology, we held two CPR training workshops in 2002. 59 members passed the CPR Examination and awarded the Certificate of Competency CPR in Basic Life Support.

Small Group Discussion

Members may form small group discussion. Some guidelines for organizing small group have been revised and details can be obtained at the College. Currently, there are 53 small groups registered with the College.

Annual Refresher Course

This traditional event consisted of 8 lectures and 2 workshops and was attended by over 150 members in 2002.

Interpractice Visit

Interpractice visit is a means of continuous medical education through practice visits by peer group. Participants may share their experience on clinic and practice management. The details were published in the College Journal in May 1998.

Diploma in Medical Ultrasound jointly organized by SPACE & HKCFP

The Board is pleased to announce a Diploma Course in Medical Ultrasound jointly organized by HKCFP and the School of Professional and Continuing Education (SPACE), the University of Hong Kong.

Objectives : To provide Family Medicine doctors an understanding and updating knowledge in the advancing field of medical ultrasound and its application in clinical practice.

Programme of Study : This one-year part-time programme comprising of three modules will be delivered over approximately 40 weeks. It consists of a total of 407 hours of instruction including self and directed learning studies. The theoretical components delivered by distance learning (on-line via Internet and CD-ROM) is based on the Medical Ultrasound module offered by the University of Ulster (UU) in Hong Kong through HKU SPACE. Whereas, a Basic Principle and Practice of Medical Ultrasound and a Clinical Practice module organized by the College involving hands-on and face-to-face

teaching will be taught in Hong Kong and Guangzhou. Doctors who successfully completed the Ulster's Ultrasound module and the College's modules will be awarded a Diploma in Medical Ultrasound jointly by HKU SPACE and HKCFP.

Course Curriculum : I. Basic Principles & Practice of Medical Ultrasound (organized by HKCFP & HKU SPACE)

This module consists of 4-5 meetings on the basic principles of medical ultrasound, with relevant demonstrations on the use and safety aspects of the ultrasound equipment.

II. Clinical Practice of Medical Ultrasound I & II (HKCFP & HKU SPACE)

This module consists of 12 workshops/sessions with hands on demonstration and practice on the use of ultrasound. Each workshop lasts for two hours with supervision and tutorship by specialist radiologists. In addition, subject to availability, workshop visit(s) may be conducted in the Guangdong Provincial Hospital of TCM, Guangzhou where a good source of patients will be available for practice under supervision.

III. General Abdominal Medical Ultrasound (University of Ulster)

This covers general abdominal and pelvis ultrasound imaging and seeks to develop the skills of differential diagnosis of abnormalities of the adult abdomen and pelvis in the clinical situation. Three lecture/tutorial meetings will be provided to support this module by local tutors.

N.B. The Ulster University module will be delivered using flexible learning materials and on-line via the Internet. Students are expected to use a computer in studying this module.

Medium of Instructions : Lectures and tutorials will be conducted mainly in English, supplemented with Cantonese, when appropriate.

Programme Delivery : The modules offered will be delivered in a rolling schedule which will enable students to cover the underpinning theoretical modules prior to undertaking the Clinical Practice modules. The course will start in September 2003.

Sep. 2003	-	Basic Principles and Practice of Medical Ultrasound
Oct. 2003	-	Clinical Practice Module I & II
Feb. 2004	-	General Abdominal Medical Ultrasound
May 2004	-	Examination (Ulster module)
Jun./Jul. 2004	-	Workshop visits to Guangdong Provincial Hospital of TCM, Guangzhou
Aug. 2004	-	Examination (Local modules)
Nov. 2004	-	Graduation

On-line Teaching : For the UU's General Abdominal Medical Ultrasound module, on-line teaching support will be provided by UU's academic staff via Internet. Basically, this involves an on line schedule of lectures/tutorials coursework assignment and chapter posting, spreading over one semester.

Teaching Faculty : Teaching supports will be organized by the College and HKU SPACE's Course Coordinating Committee. Lecturers and tutors will be recruited from specialists working in university, hospitals and other clinical services. Teaching of the Clinical Practice module will be conducted by Radiologists from Hong Kong as well as Guangzhou.

Time : Local workshops/tutorials will be held on Saturday afternoons (2:15 p.m. - 4:15 p.m.)

Venue : HKU SPACE Admiralty Learning Centre, 2/F & 3/F, Admiralty Centre, 18 Harcourt Road, Hong Kong.
Detailed schedule available on request. Date, time, venue and workshops in Guangzhou may subject to change.

Examination and Assessment : The Basic Principles and Practice of Medical Ultrasound module will be assessed and by 1-hour written examination. For the UU's Medical Ultrasound module, assessment will be by both coursework and examination. Coursework will normally constitute 40% to the overall module result and the end of module examination (3-hour written paper) contributes 60%. For the Clinical Practice module, case study records and clinical skills will be assessed continuously by the clinical tutors throughout the module. The pass mark for all modules is 50%.

Students who failed in the written examinations will be given another opportunity of a re-sit examination. Those who failed in the Clinical Practice module assessment will be required to repeat the same module when it is next offered.

Graduation Requirement : Students must normally attend at least 75% of the scheduled meetings. They have to pass all the examination and assessments for the award of the Diploma in Medical Ultrasound.

Admission Requirement : Applicants should normally possess either
a. a recognized medical qualification; or
b. an Honorary Degree or Diploma of the College of Radiographers;
c. a qualification deemed to be equivalent to a. or b. above

Course Fee : Member of HKCFP	HK\$32,000
Non-member	HK\$64,000

Candidates should send their cheques in full payment on application.

Non-member who wants to enjoy the reduced fee as that of a College member must submit application for membership to the College separately and must be successfully admitted as a member before registration deadline. As process of membership admission takes time, non-member is strongly advised to apply as soon as possible.

All fees received are non-refundable and non-transferrable.

Library (Optional) : HKU Library ticket charge is not included in the course fee. For members who have no free access to the library, the cost for the borrower tickets currently is HK\$1,505 per annum.

THE SIXTEENTH CONJOINT FHKCFP/FRACGP EXAMINATION

The 16th Conjoint Examination was conducted in conjunction with the Royal Australian College of General Practitioners as in previous years. In addition to individual segment meetings and practice sessions, examiners' training camps were held on September 1, 2002 (Sunday) at Our Lady of Maryknoll Hospital and September 15, 2002 (Sunday) at Old College Premises during which marking was standardized and the examination materials were practiced and thoroughly discussed.

The actual examination took place on the following dates:

MEQ	October 5, 2002 (Saturday)	HKAM Jockey Club Bldg.
MCQ	October 6, 2002 (Sunday)	HKAM Jockey Club Bldg.
CI	October 6, 2002 (Sunday)	HKAM Jockey Club Bldg.
DI1&2 / PE(Short)	October 13, 2002 (Sunday)	Our Lady of Maryknoll Hospital
ORAL	October 16, 2002 (Wednesday)	Ngau Tau Kok Polyclinic
	October 17, 2002 (Thursday)	Ngau Tau Kok Polyclinic
DI3 / MI / PE(Long)	October 20, 2002 (Sunday)	Our Lady of Maryknoll Hospital

The visiting examiners from RACGP were Dr. Beth Jane and Dr. Frances Poliniak. They contributed many constructive ideas and observed the clinical segments of the examination. There were ninety-nine candidates applied for the examination, two did not meet the criteria for Category I, two withdrew from the examination. Thus a total of ninety-five candidates sat the examination, including 37 vocational trainees only taking the written segments and 58 taking the clinical segments.

The successful candidates were:

Dr. Chan Ka Lok	Dr. Ip Yiu Man
Dr. Chan Wai Yee	Dr. Lau Kam Tong
Dr. Chan Yan Kwong, Eric	Dr. Lau Man Wai, Dominic
Dr. Chan Yuk Chun	Dr. Lau Hon Chung

The Exit Assessment Committee conducted Supplementary Exit Assessment in September, 2002. Nine candidates took the supplementary Exit Assessment and five candidates successfully completed and passed the whole EA.

The 2003 Exit Assessment was held from January 3 to March 7, 2003. Fifteen candidates attempted the Assessment and six candidates successfully completed and passed the whole EA. Professor Robin Fraser was the External Assessor of the 2003 Exit Assessment.

The Committee organized a pre-Exit Assessment training workshop, standardization workshops for assessors of each segment, debriefing session for all assessors and feedback session for candidates of the Assessment. The Committee also recommended consultation skills workshop for higher trainees by Board of Vocational Training and Standards which was held on December 7, 2002 for the first time.

The Committee thanked Dr Yiu Yuk Kwan for her enormous contributions as Chairman for the past years and welcomed her stay as committee member. The Committee would also like to thank Dr. Lam Hon Man who has resigned from the Committee for his contributions.

Finally, the Committee would like to express the most sincere thanks to all assessors for their dedication and hard work in making the Exit Assessment possible and successful.

Report from Primary Medical Care Certificate Committee

Chairman	: Dr. Ip Kit Kuen
Ex-officio	: Dr. Donald Li Dr. Wong Hung Wai Dr. Chan Hung Chiu Dr. John T N Chung
Advisors	: Dr. Chan Kwok Wai Dr. Stephen Foo
Committee Members :	Dr. Dr. Liu Wing Dr. Dorothy To
Administrative Executive:	Ms Winnie Cheung

PMCCA was to endorse the practice standard of primary care doctor. It was a response to the Harvard's report and an attempt to fulfill the community's demand for quality primary medical care. There was no new application consecutively for three years. Under the direction of the College Council, a working group was formed to review this assessment.

The working group opined that PMCCA had a role in arousing the need of the regulating the quality of primary medical care. Subsequent to that, the Medical Council formulated the compulsory CME program for all practising doctors. Our college formulated and offered the Diploma course in Family Medicine to all primary care doctors. The working group opined that PMCCA has completed its historical role and it is no longer desirable to accept new applications. Current PMCCA holders shall continue to receive the certificate as long as they fulfill the stipulated requirements and possess the current QA&A certificate. The PMCCA committee shall be dissolved and the Chairman of QA&A committee shall be responsible for the renewal of the PMCC

In this last report, I would like to take this opportunity to express my gratitude again to the committee members for the valuable input and advice in the past few years. Special thank is also due to our administrative executive, Ms Winnie Cheung who had provided unfailing support.

Changes in the BVTS

The Board of Vocational Training and Standards had had a very busy year with a significant increase in the number of vocational trainees, training practices and clinical supervisors. The Board welcomed Dr. John T N Chung, Dr. Gene W W Tsoi and Dr. Luk Wan as new members of the Board.

Hospital Training Posts

This year, the number of trainees in Basic Training continued to have a significant increase as our Board had accepted a number of new trainees from Hospital Authority to join our Basic Vocational Training Programme. The number of trainees in Higher Vocational Training in Family Medicine also continued to increase. The list of our trainees in 2002/2003 is listed in Appendix A. The list of our current Honorary Clinical Supervisors in Family Medicine is listed in Appendix B.

Additional Training

Some additional trainees had started their training programme and the progress was satisfactory. Some had already finished their required additional training and had successfully passed the Exit Examination of our College.

Output

Congratulations to our trainees, Dr. Chan Ka Lok, Carroll, Dr. Chan Wai Yee, Dr. Chan Yan Kwong, Eric, Dr. Chan Yuk Chun, Dr. Cheng Pui Kwan, Lisa, Dr. Cheung Yu, Dr. Chiu Chi Fai, Billy, Dr. Chow Wing Man, Dr. Chung Chi Yan, Benny, Dr. Lau Kam Tong, Dr. Lau Man Wai, Dominic, Dr. Lee Chun Kit, Tony, Dr. Tse Ching Wan, Charmaine, Dr. Tsui Wing Sze, Wendy, Dr. Wong Man Yee, Dr. Wong Man Ying, Michelle, and Dr. Wong Wai Ying for passing the HKCFP/RACGP Conjoint Examination in 2002 and for being elected Fellows of the Hong Kong College of Family Physicians and the Royal Australian College of General Practitioners.

This year, there was a moderate sponsorship of College's events due to poor economic environment aggravated further by the SARS incident. However annual medical updates, refresher courses and luncheon scientific meetings were still widely supported. Our Journal remained one of the most popular and widely circulated medical literatures locally. Advertisements in our journal and circulation services to members were still in adequate demands. The College invited all the sponsors to the 25th Anniversary Dinner and shared a memorable evening together.

On behalf of the College, I would like to express my gratitude to all of the following

The Hong Kong College of Family Physicians was founded in 1977 by the late Dr Henry FK Li as chairman of the interim council and Dr Peter CY Lee as founding president with the aim to improve the quality of primary care in Hong Kong through continuing medical education, training, and assessment. After twenty-five years, the College has progressed from a small association into one of the founding Constituent Colleges of the Hong Kong Academy of Medicine.

To commemorate our Jubilee Anniversary, a series of activities were organized and the highlight was our Anniversary scientific meeting on the theme "Professional Performance and Training" in March 2003. We were honoured to have the Hon Chief Justice, Mr Andrew Li, the President of the Hong Kong Academy of Medicine, Dr. Leong Che Hung, our Founding President, Dr. Peter Lee, and our President, Dr Donald Li to officiate the Opening Ceremony of the Scientific Meeting. Many prominent guests from overseas including Prof. Yvonne Carter, Dr. Beth Jane, Prof. Dai Yuhua, Dr. M K Rajakumar, Dr. Clarke Munro and Prof. Leon Pitman Prof. Michael Kidd, Dr. Neil Spike had come to our scientific meeting and shared their experience.

I wish to take this opportunity to thank all those who had contributed to these series of events, in particular, our founding President, Dr. Peter Lee for his invaluable advice on the publication of the commemorative brochure. I am also in debt to those who gave their time and effort in making the Anniversary Scientific Meeting successful.

Application Development: Membership Management System (MMS)

College has reviewed the implementation of MMS for the past year, testing has been run repeatedly in order to ensure that members' information are being kept up-to-date and strictly confidential. Various System Enhancements have also been implemented throughout the year; mainly on reports of members' record; and to cater/facilitate new evolutionary changes of many college functions e.g. Conjoint Exams and the Quality Assurance Activities.

Web Development

The college web site has been developed for providing up-to-date college information to members. Most of the forms have been uploaded to the web site so that members could download them easily. As the journals from 1995 to 2002 have been uploaded in the past, the search engine has been released in order to allow members to review them from time to time. Usage by members of the On-line MCQ completion facility and other electronic transactions were on the low side. A new WEB Editorial Committee will also be formed to better serve College members.

Hardware Maintenance

With the opening of Diploma in Family Medicine, Computer Committee was responsible for setting up the computers-related hardware in Old College Premises. 4 pieces of PC were purchased together with licenses of Windows XP and Microsoft Office XP.

Software Maintenance

Linkage of our database system between the office at Wong Chuk Hang and Wan Chai has been smooth and successful, by introducing the Terminal Client Services which allows the data being transferred from one site to another.

The Notebook has been upgraded to Windows Professional 2000 and Microsoft Office 2000 in order to allow up-to-standard presentation during Lectures or other College activities.

Welcome of new Member:

The Committee welcomed Dr. Pau Wai Man and Dr. Tsui Hing Sing, who represent Board of Vocational Training and QA & A Committee respectively, to join the Computer Committee where they can give their professional input to our database system.

COUNCIL MEMBER-ON-DUTY (CMOD) SYSTEM

Coordinator: Dr. CHAN Hung Chiu

Executive Manager: Ms. Kris LAM

Administrative Executive: Ms. Pinky LEUNG

The CMOD system has been running smoothly for more than two years now. From July 2002 to June 2003, we have altogether received 10 inquiries from our members concerning matters related to our College and to Family Medicine. (Table 1) The most frequently asked area (3 out of 10 inquiries) was about the CME & CPD accreditation and regulation in our QA&A Programme. All the inquiries, comments and suggestions from our members were received with great attention. They were then directed to the respective Board or Committee for necessary follow-up actions. All these ideas and comments were extremely constructive and useful to the College not only for further improvements but also for the future developments of our College policies. Overall this form of communication has generally been well accepted. The feedback statistics from the users of the CMOD System are now enclosed. (Table 2). With effect from June 2003, some frequently asked questions (FAQ's) would be published in the journal from time to time for members' information. As the College Council would like to continue providing this service, I hope more fellows and members would make use of this system in the coming year.

I would like to take this opportunity to thank all those members for their invaluable comments and support. I would like to thank all our Council members who have contributed in communicating with the College members and answering their inquiries in the past year. I would also like to thank Ms. Kris Lam, our Executive Manager, and Ms. Pinky Leung, our Administrative Executive, for their support and services.

Committee Members : Dr. Donald K T Li (Ex-officio),
Dr. Wong Hung Wai (Ex-officio),
Dr. John TN Chung (Ex-officio),
Dr. Raymond C H Lo

Administrative Executive: Ms. Pinky Leung

In 2002, with careful monitoring by the College's Finance Committee, the financial situation of the College continues to remain sound and healthy. The investment strategy remains conservative. Our accumulated financial reserve keeps on growing steadily. There is now a deposit of equivalent of over 13 million Hong Kong dollars in our accounts. To avoid high-risk investment, funds are carefully placed, with over 4 million dollars in time deposits, 2 million dollars in guaranteed funds and over 2.5 million dollars in US Bonds.

I would like to express my sincere thanks to Dr. Donald Li, our President, Dr. Wong Hung Wai, our Vice President, Dr. John Chung, our Honorary Secretary, Dr. Raymond Lo, our Business Manager, and Pinky Leung, our Administrative Executive, for their continuous support and services. I would also like to thank Mr. C.F. Cheung, our Honorary Auditor, for his professional advice and services.

Conferment Ceremony

It was the first time that our College co-organised the Fellowship Conferment Ceremony and the 14th Sun Yat Sen Oration with one of our sister colleges, Hong Kong College of Community Medicine. The ceremony was successfully held on 22 March 2003 (Saturday) at the Run Run Shaw Hall, HKAM Jockey Club Building. We witnessed and congratulated the conferment of our Immediate Past President, Dr. Stephen Foo as Honorary Fellow of our College. At the same time 3 internationally renowned leaders in the field of Public Health were conferred Honorary Fellowship of the College of Community Medicine. They are Dr. Zhang Wenkang, Dr. Snigeru Omi and Dr. Leong Chi Hung. The ceremony was ended with our special honor of having Dr. Yeoh Eng Kiong, JP, the Secretary for Health, Welfare and Food to deliver the 14th Sun Yat Sen Oration entitled "Medicine without the Medicine".

The ceremony was well received by about 119 guests and participants. There were 22 members conferred for Fellowship of the Hong Kong College of Family Physicians and 20 members for Fellowship of the Royal Australian College of General Practitioners. They were:

Administrative Executive : Ms Mandy Li

The current membership of HKCFP was as follows:- (as in June 2003)

Fellows*	251
Full Members	277
Associate Members	916
Others**	42

Total: 1,486

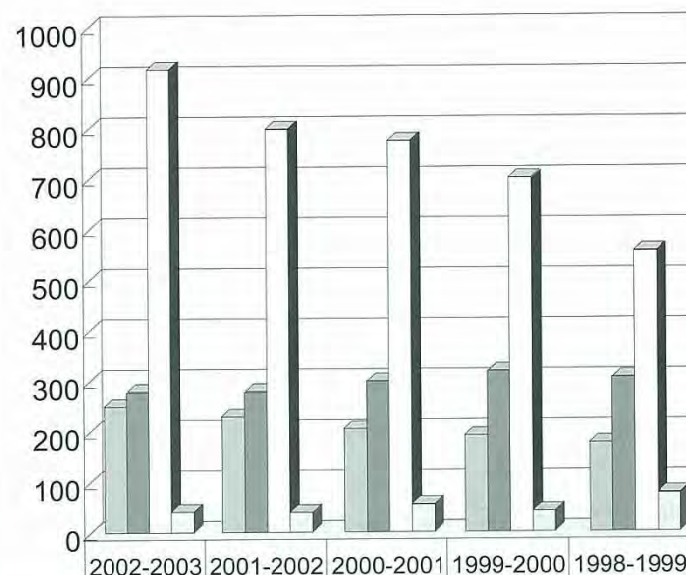

* Fellows include Fellows, Foundation Fellows, Hon. Fellows, Non-HKSAR Fellows.

** Others include Non-HKSAR Members, Student Members and Affiliate Members.

The body of associate membership is growing steadily over the years which is an encouraging fact. Also, more of our members have become Fellows. With our strong morale and College's team of dedicated members, the term "Family Medicine" is increasingly recognized by the general public as synonymous to quality primary care. The road towards global acceptance of Family Medicine is long, yet College will upkeep its role in maintaining standards and quality through vocational training and CME programmes.

The Membership committee will continue to explore plans for membership promotion and welcome any suggestions from our members.

MRCGP (INT) AD HOC COMMITTEE

Chairman : Dr. Leung Koon Chit

Vice-Chairman : Dr. Wong Hung Wai

Committee Members : Dr. Luk Wan
Dr. Lui Luen Bun, Benny
Dr. Wong Ka Wah

Executive Manager : Ms. Kris M. W. Lam

2002-2003 has been a fruitful year for the Committee. Formed in April 2002, our Committee liaise with MRCGP (INT) Committee of the Royal College of General Practitioners of UK(RCGP) with the prospect of accrediting the existing Conjoint Fellowship Exam of our College towards the MRCGP(INT) qualification. Under the leadership of our President and the HKCFP Council, our College is indeed keen to establish intercollegiate ties with RCGP as a sister College through this accreditation exercise. So far the response from RCGP is very positive, and Dr John Howard, Chairman of the MRCGP (INT) Committee of RCGP, came over and witnessed our 2002 Conjoint Exam in October, expressing high regards of our Exam. Further liaison for final accreditation is actively under way and we have one single goal ahead: the birth of an internationally recognised local Exam leading to a Trijoint MRCGP(INT)/FRACGP/FHKCFP qualification.

NOMINATION COMMITTEE

Chairman : Dr. Chan Kin Ling

Committee Members : Dr. Yiu Yuk Kwan (Chairman, BVTS)
Dr. Leung K C Lawrence (Chairman, Membership Committee)
Dr. Keith Tse
Dr. Donald K T Li (Ex-officio)
Dr. Wong Hung Wai (Ex-officio)
Dr. John T N Chung (Ex-officio)
Dr. Chan Hung Chiu (Ex-officio)

Administrative Executive: Ms. Mandy Li

The main task of the Nomination Committee is to scrutinize applications for nomination to Fellowship of the Hong Kong Academy of Medicine in Family Medicine. It also examines applications for assessment of FHKAM (Family Medicine) equivalent standard according to the regulations laid down by HKAM and our College Councils.

Twelve fellowship nominations were submitted by our College and all were approved by the Hong Kong Academy of Medicine in the Year from October 2002 to September 2003.

PUBLIC EDUCATION COMMITTEE:

Chairman : Dr. Ip Kit Kuen

Ex-officio : Dr. Donald K.T. Li
Dr. Wong Hung Wai
Dr. John T. N. Chung
Dr. Chan Hung Chiu

Members : Dr. Chan Kin Ling
Dr. Betty Kwan
Dr. Raymond Lo

Administrative Executive : Ms Winnie Cheung

The committee established a duty roster to answer enquiries from the public medias. Our President would answer enquiries on the policy regarding family medicine. Other council members took turn to provide health care information to newspaper or journal reporters and appear in television programmes.

In March 2003, a press release was arranged to announce the celebration of our 25th Anniversary cum Opening ceremony of the Scientific Meeting. However, this occasion was overshadowed by the outbreak of the SARS. In the coming November, we would conduct a seminar for the Community Health Day organized by the Hong Kong Girl Guides Association.

I would like to take this opportunity to express my gratitude to all those who have committed to offer their assistance to the committee and, particularly, to our administrative executive, Ms Winnie Cheung.

This is a quiet year for the QA&A committee as a lot of the educational activities were put into a halt because of the SARS epidemic from March to June. It will be interesting to study the impact of SARS on our QA system next year.

Continuous Professional Development (CPD) was first introduced as a mandatory requirement for the award of the QA certificates since year 2000. The following table is the analysis of the award of QA certificates from the year immediate before (year 1999) to the years (year 2000 to year 2002) after the introduction of CPD.

Percentage of College Members/Fellows awarded QA certificates

%Awarded QA certificates	College Fellows	College Full Members	College Associate Members
1999	137/176	108/303	70/575
	77.84%	35.64%	12.17%
2000	124/182	92/327	89/624
	68.13%	28.13%	14.26%
2001	147/193	93/320	135/758
	76.16%	29.06%	17.81%
2002	185/230	78/283	166/905
	80.43%	27.56%	18.34%

There had been a drop in the percentages of award of the QA certificates among all categories of our membership from year 1999 to year 2000 when CPD was first introduced. With the campaigns and supports from the QA&A committee over the years, the percentages of award of QA certificates for College Fellows and College Associate Members gradually climbed back to above the pre-CPD levels. However, this percentage remained static for College Full Members after the initial drop and will pose a challenge to the QA&A committee in years to come.

In 2002, 185 fellows, 78 full members and 166 associate members have met the criteria for QA certificates. There was only one HKAM fellow who failed to maintain the HKAM's minimum annual requirement of 15 credit hours and he was able to make up the deficit through the remedial QA program.

THE HONG KONG COLLEGE OF FAMILY PHYSICIANS

REGULATIONS FOR AWARD OF CERTIFICATE OF QUALITY ASSURANCE (Academic Year: January 2003 - December 2003)

All Fellows and members of our College (except student & affiliate members) are automatically registered with the Quality Assurance Programme (QA) at the beginning of each academic year. Accreditation will be recorded throughout the year in the form of credit points. At the end of the academic year, summation of the total score will be recorded in the member's record. A Certificate of Quality Assurance will be awarded to those Members and Fellows who have satisfied the requirements listed in Section 2 below, upon payment of an administrative fee of HK\$200. The total number of credit points accumulated will be endorsed on the Certificate as recognition of performance in Quality Assurance.

(1) The Award of the Certificate of Quality Assurance is open to all participants of the QA Programme. Fellows and members of the HKCFP who fulfill the requirements of the Certificate of Quality Assurance can retain their active status. In addition, Fellows of the Hong Kong Academy of Medicine (Family Medicine) have to comply with the regulations set by the Hong Kong Academy of Medicine, which are summarized under section 3.

(2) The requirements for the award of the Certificate of Quality Assurance are 30 credit points within the academic year and also participation in a minimum of 3 different types of activities to be eligible for the certificate, subject to the following provisions: -

2.1 At least 10 credit points must be obtained from the Continuous Professional Development (CPD) activities (listed in subsections 4.1 to 4.23).

2.2 At least a combined total of 20 credit points must be obtained from a combination of the Continuous Professional Development activities (subsections 4.1 to 4.23) and the CME activities organized by the Hong Kong College of Family Physicians (subsections 5.1 to 5.8)

2.3 A maximum of 15 credit points will be considered for each subsection of educational activity

Please note that subsection 2.3 only applies to the calculation of the total credit points requirement for the award of the Certificate. When a participant qualifies to be awarded the Certificate, the actual number of credit points scored will be recorded on the Certificate.

(3) The CME Programme of the FHKAM consists of three-yearly CME cycles organized through individual Colleges. All existing FHKAM (FM), including overseas fellows, are required to register with the Quality Assurance programme of HKCFP at the beginning of each year (January). Accreditation will be recorded throughout the academic year in the form of credit points. Both the annual & total accumulative score within the 3-year cycle will be sent to the Fellows at the end of each academic year. As our College's Assurance programme is structured on a calendar year basis, the commencement of the first 3-year QA cycle for new HKAM fellows who are conferred between January 1 to June 30 will be adjusted back to January of the same year. For new fellows who are conferred between July 1 to December 31, the QA cycle will commence on January of the following academic year. All FHKAM (FM) fellows are required to fulfill the following criteria laid down by HKAM:

3.1 They must attain either a CME or QA certificate from the HKCFP each year.

3.2 They must attain a minimum of 90 credit points over the 3-year cycle.

3.3 Teaching medical/postgraduate students and research activities are not recognized by HKAM as CME activities. Fellows who include teaching medical/postgraduate students or research activities (listed under items 4.1 and 4.2) as part of their minimum 10 CPD points requirement for the QA certificate need to get the corresponding number of extra CME/CPD points from other categories to cover up. For example, if you get 20 CME points, 5 CPD points from teaching medical students (item 4.1) and 5 CPD points from any activities from 4.3 to 4.23, you have to get extra 5 CME/CPD points (from 4.3 to 6.7) because the 5 CPD points from 4.1 would NOT be counted as CME activities under HKAM guidelines.

(4) Continuous Professional Development (CPD) with automatic computer recording except for items 4.2, 4.8 and 4.22.

Activities related to undergraduate teaching / research:

- 4.1 Up to 5 points may be awarded for teaching/tutoring medical students in family medicine attachments for a full year upon receipt of the recommendations from the Universities before the end of the academic year.
- 4.2 Accreditation may be given to participation in research work related to the field of General Practice. The number of credit points awarded will be decided by the QA & A Committee only after individual application at a maximum of 4 points per quarter of data collection.

Activities related to training:

- 4.3 5 points may be awarded for acting as a mentor / clinical supervisor of vocational trainees in Family Medicine for that particular year.
- 4.4 5 points may be awarded for acting as assessor for the Primary Medical Care Certificate Assessment in Family Medicine, as examiner for the Conjoint Fellowship Examination of the RACGP and the College, or as assessor of the Exit Assessment of HKCFP Higher Vocational Training for that particular year.
- 4.5 Up to 5 credit points may be awarded for that particular year for being a CPR instructor or an instructor of the Distant Learning Courses organized by the College.

Activities related to exam:

- 4.6 5 points may be awarded for passing each segment (55% or above) in the Primary Medical Care Certificate Assessment in Family Medicine, or for passing each segment (65% or above) of the Conjoint HKCFP/RACGP Fellowship Examination or for passing each segment of the Exit Assessment of the HKCFP Higher Vocational Training for that particular year.
- 4.7 2 points may be awarded for passing the Cardiopulmonary resuscitation and basic life support (CPR) assessment organized by our College.
- 4.8 Up to 5 points may be awarded for passing a professional examination relevant to General Practice/Family Medicine. The number of credit points awarded will be decided by the QA & A Committee only after individual application.

Activities related to audit / quality development

- 4.9 Up to 5 points may be awarded for participating in a quality assurance exercise / workshop or clinical attachment courses organized by our College.
- 4.10 Up to 15 points may be awarded for the submission of a self-audit report on an evidence-based medical protocol, such as Eli Lilly Centre Audit Protocols, to the QA & A Committee. The protocols are available from the College Secretariat.
- 4.11 Up to 10 points may be awarded to a College assigned practice visit upon submission of a written peer audit report to the QA & A Committee. The protocol is available from the College Secretariat.
- 4.12 Up to 10 points may be awarded to a self-audit on the Prescription Pattern upon submission of a written report.
- 4.13 Up to 10 points may be awarded to a self-audit on the Referral Pattern upon submission of a written report.
- 4.14 Up to 10 points may be awarded to a self-audit on the Investigation Pattern upon submission of a written report.
- 4.15 Up to 10 points may be awarded to a self-audit on Prevention Activities upon submission of a written report.
- 4.16 Up to 10 points may be awarded upon submission of a completed Portfolio of the Self Learning Plan.

- 4.17 One credit point may be awarded for being a moderator and up to 3 credit points for being a speaker on session basis for activities listed in subsections 5.3 to 5.5 and from 6.1 to 6.2 upon receipt of the recommendations from the organizing institutions before the end of the academic year.
- 4.18 One credit point may be awarded on session basis for being the chairperson / speaker of the pre-approved discussion group listed in subsection 5.6 upon receipt of the recommendations from the Board of Education before the end of the academic year.
- 4.19 Up to 2 credit points may be awarded upon submission of a completed Professional Development log after reading a journal article published in the HK Practitioners or the Hong Kong Medical Journal.
- 4.20 Up to 2 credit points may be awarded upon submission of a completed Professional Development Log after attending a professional development activity organized by the College.
- 4.21 Up to 5 credit points may be awarded to a critical appraisal report on a journal article published at the Hong Kong Practitioners or the Hong Kong Medical Journal.
- 4.22 Accreditation may be awarded for publishing journal articles, books or thesis with a maximum of 10 points for each journal article published in an indexed or refereed journal or publishing a medical book or thesis; and a maximum of 5 points for each journal article published in other journals or publications not mentioned above. The number of credit points awarded will be decided by the QA & A Committee only after individual application except for publications in the Hong Kong Practitioner, which will be automatically updated by the computer.
- 4.23 Up to 10 points may be awarded to a self-audit on Waiting Time upon submission of a written report.

(5) Continuing Medical Education (CME) with automatic computer recording

- 5.1 One credit point may be awarded for each correct set of answers (with score over 50%) to the MCQs provided at College educational activities or enclosed in the College Journal, the Hong Kong Practitioner. Only answers returned to the College within the specified time will be assessed.
- 5.2 One credit point may be awarded for attending each video session organized by our College.
- 5.3 Up to 2 credit points may be awarded for attending each afternoon or evening lecture or for attending each meeting and seminar organized by our College.
- 5.4 Up to 4 credit points may be awarded for attending each half-day workshop or symposium organized by our College.
- 5.5 Up to 2 credit points may be awarded for attending each seminar and up to four credit points may be awarded for each Sunday workshop/symposium at the Annual Refresher Course organized by our College.
- 5.6 One credit point may be awarded for participation in small discussion group that is pre-approved by our College's Board of Education.
- 5.7 Up to 12 credit points may be awarded for satisfactory completion of the full-year HKCFP Check on CHECK programme.
- 5.8 Up to 15 points may be awarded for each clinical attachment organized by our College.

(6) Other Educational Activities

Apart from educational functions organized by our College, medical education organized by other institutions and in other forms may be accredited CME points under the following guidelines:

- 6.1 Medical conferences or educational activities organized by other Colleges of the Hong Kong Academy of Medicine may be accredited upon application for prior approval by the organizing institution. The number of credit points awarded will be decided by the QA & A Committee with a maximum of 10 points per activity. Only activities with participation records will be accredited. The computer will automatically update pre-approved functions.
- 6.2 Seminars / workshops / symposia / conferences / postgraduate courses in Family Medicine organized by other institutions may also be accredited upon application for prior approval by the organizing institution. The number of credit points awarded will be decided by the QA & A Committee with a maximum of 10 points per function. Only functions with attendance records will be accredited. The computer will automatically update pre-approved functions.
- 6.3 Up to 10 credit points may be awarded for satisfactory completion of the electronic MCQs on Internet web sites that are pre-approved by the Board of Education at 1 credit point for each correctly completed topic. Pre-approved functions will be automatically updated by the computer.
- 6.4 Accreditation may be awarded for attending overseas symposia/conferences etc. organized by sister WONCA Colleges. The number of credit points awarded will be decided by the QA & A Committee only after individual application with a maximum of 10 points per meeting.
- 6.5 Accreditation may be awarded for attending postgraduate courses designed for general practitioners, e.g. Diploma courses and Master courses in Family Medicine. Award is normally given on completion of the course, unless the course lasts for more than 12 months and is taken and graded in sub-units. Photocopies of transcripts must be submitted with the application. The number of credit points awarded will be decided by the QA & A Committee only after individual application with a maximum of 15 points per course.
- 6.6 Accreditation may be awarded for completion of Continuing Medical Education Programme of other Colleges of General Practice/Family Medicine. The number of credit points awarded will be decided by the QA & A Committee only after individual application.
- 6.7 Accreditation may be awarded for participating in health education for the public e.g. talking to school children as a physician, writing newspaper articles or appearing on television giving health education. The number of credit points awarded will be decided by the QA & A Committee only after individual application with a maximum of 2 points per activity.

For **Educational Activities** under items 4.2, 4.8, 4.22 and 6.4 to 6.7, participants have to apply in writing with the appropriate fees to the Quality Assurance and Accreditation Committee at the end of the academic year and before January 15th of the following year if they want to obtain accreditation for their additional educational activities. It is the responsibility of the applicants to file the application forms for special consideration with details (photocopies of events, transcripts or published articles, etc.) and written proof of attendance issued by the organizing institutions in support of the application. The Quality Assurance and Accreditation Committee have the final right in deciding the number of credits awarded for each activity.

Dr. Wong Hung Wai (Ex-officio)
Dr. John Chung (Ex-officio)
Dr. Chan Hung Chiu (Ex-officio)

Administrative Manager (Education): Ms. Jessica Cheng

The Committee welcomed our new honorary advisors: Professors Robin Fraser, Cindy Lam, and Albert Lee, and members: Drs. Ng Kwok Keung and Sze Hon Ho. The Committee also thanked Dr David Chao for his contribution as Chairman for the past years and welcomed his stay as committee member. Professor Tony Dixon, Professor James Dickinson, Drs. Memie Kwok, Siu Ping Cheong, and Joyce S F Tang have also retired from serving the Committee and the Committee would like to thank them for their contributions in the past and look forward to working with them again in the future when the opportunity arises.

This year, the Committee completed two studies: "Establishing the content validity in Hong Kong of the prioritized criteria of consultation competence in the Leicester Assessment Package (LAP)" by Dr Jonathan Lau, Professor Robin Fraser and Professor Cindy Lam and "Effect of SARS on Consultations in Primary Care in Hong Kong" by Dr Ruby Lee, Professor Robin Fraser, Professor Cindy Lam, Dr Ho Kin Sang, Dr Donald K T Li.

A special committee on HKCFP annual research award 2002 led by Dr David Chao organized the selection this year and the winning project was "Frequency and pattern of antibiotic prescription for common infections in a family practice" by Dr Chan Hung Chiu.

The ICPC-2 Chinese version has been well received by colleagues and many copies were already purchased since its launch in 2001.

Finally, I wish to thank all who have provided assistance to the Research Committee and look forward to closer collaborations in the future.

HONORARY TREASURER

Honorary Treasurer : Dr. Chan Hung Chiu
Members : Dr. Donald K T Li (Ex-officio)
Dr. Wong Hung Wai (Ex-officio)
Dr. John T N Chung (Ex-officio)

Administrative Executive : Ms. Pinky Leung

The financial situation of our College remains stable for the year 2002-2003. We are now having over 13 million Hong Kong dollars in reserve.

I would like to thank the Ex-officio and Dr. Ip Kit Kuen (past Hon. Secretary) for their excellent advice on the investments of our reserve.

With effective from March 2003, a new company, HKCFP Holdings & Development Company Limited, has been set up. Its establishment is mainly for the purpose of properly and efficiently managing our future educational projects which may generate profits that have tax implications.

In 2002, our College is keeping over 1 million dollars fixed deposits, 1 million dollars certificate of deposit and 1 million dollars guaranteed fund in the accounts of HSBC; 350 thousand dollars US Bonds deposit, over 1 million dollars fixed deposit and 1 million dollars guaranteed fund in the accounts of Bank of East Asia; and over 1 million dollars time deposit in the accounts of Chekiang First Bank Ltd.

Our income in 2002 (HK\$6.3 million) has a slight increase (5.4%) as compared to last year, despite the decline in donations and sponsorships from various pharmaceutical companies. Our income from Board of Education (HK\$1.5 million) is over 18% greater, from Membership Committee (HK\$1.3 million) is over 5.8% greater, from Board of Examination & Assessment (HK\$1.6 million) is over 9.4% greater, and from the Board of Vocational Training and Standards (HK\$0.83 million) is over 15% greater, than in 2001. The increase in income from membership subscription represents an increase in the number of our members, as membership subscription has not been changed last year. The increase in income from the training and examination activities represents the growth in members (particularly the Hospital Authority trainees) involving in our training activities, Fellowship examinations and the quality assurance activities. On the other hand, income from the Editorial Board (HK\$0.63 million) is over 24% lesser, and from the Finance Committee (HK\$0.24 million) is over 38% lesser, than in 2001. The lower income generated from the dividends and interests is mainly due to the global decline in interest rates.

Our total expenditure in 2002 (HK\$5.7 million), on the other hand, is over 11% higher than in 2001. Our total sponsorships including WONCA Conference in Kuala Lumpur (HK\$30,000), WONCA EUROPE (HK\$33,680), Kunming Conference (HK\$50,230), Family Medicine Prizes to HKU & CUHK (HK\$10,000), and others (HK\$15,000) amount to HK\$0.14 million, over 124% higher than in 2001. The two extra expenditure items last year, the celebration of 25th Anniversary of our College (HK\$0.43 million) and the preparatory work for MRCGP (International) (HK\$92,288), amount to 9% of our total expenditure. Despite an overall reduction of over 4% to maintain our College secretariat and to pay for our College functions and management fees, the expenditure in these areas are still substantial (HK\$2.3 million).

Our total operating surplus in 2002 is HK\$0.68 million, with a reduction of HK\$ 0.24 million (over 25%) as compared to 2001.

I would like to thank Ms. Pinky Leung, our Administrative Executive, for her hard work in taking care of our accounts.

AUDITOR

The financial statements have been audited by Messrs C. F. Cheung who retires and, being eligible, offers himself for re-appointment.

On behalf of the Council

Chairman
HONG KONG, 22 October 2003

**REPORT OF THE AUDITOR TO THE MEMBERS OF
THE HONG KONG COLLEGE OF FAMILY PHYSICIANS
(Limited by guarantee)**

I have audited the financial statements set out on pages 69 to 74 which have been prepared in accordance with accounting principles generally accepted in Hong Kong.

Respective responsibilities of the Council and Auditor

The Companies Ordinance requires the Council to prepare financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently.

It is my responsibility to form an independent opinion, based on my audit, on those statements and to report my opinion to you.

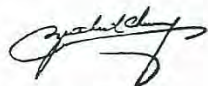

Basis of opinion

I conducted my audit in accordance with Statements of Auditing Standards issued by the Hong Kong Society of Accountants. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Council in the preparation of the financial statements, and of whether the accounting policies are appropriate to the College's circumstances, consistently applied and adequately disclosed.

I planned and performed my audit so as to obtain all the information and explanations which I considered necessary in order to provide me with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. In forming my opinion I also evaluated the overall adequacy of the presentation of information in the financial statements. I believe that my audit provides a reasonable basis for my opinion.

Opinion

In my opinion, the financial statements give a true and fair view, in all material respects, of the state of affairs of the College at 31 March 2003 and of its results for the year then ended and have been properly prepared in accordance with the Hong Kong Companies Ordinance.

NOTES TO THE FINANCIAL STATEMENTS

- 1 ADOPTION OF STATEMENTS OF STANDARD ACCOUNTING PRACTICE**
In the current year, the company has adopted Statement of Standard Accounting Practice 2.101 Presentation of financial statements (SSAP 1 Revised) issued by the Hong Kong Society of Accountants which is effective for accounting periods commencing on or after 1 January 2002.

SSAP1 (Revised) prescribes the basis for the presentation of financial statements and set out guidelines for their structure and minimum requirements for the content thereof. The principal impact of the revision to this SSAP is that a statement of changes in equity is now presented in place of the statement of recognised gains and losses that was previously required.

2 LEGAL STATUS

The College is a company limited by guarantee and not having a share capital. The liability of each of its members, in the event of its being wound up while he is a member, or within one year after he ceased to be a member for payment of the debts and liabilities of the College contracted before he ceases to be a member, and costs, charges and expenses of winding up, and for the adjustment of the rights of the contributories among themselves, is limited to an amount not exceeding HK\$10.

3 SIGNIFICANT ACCOUNTING POLICIES

(a) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation.

The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the fixed assets have been put into operation, such as repairs and maintenance costs, is normally charged to the income statement in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the asset, the expenditure is capitalised as an additional cost of the asset.

The gain or loss on disposal or retirement of an asset recognised in the income statement is the difference between the sales proceeds and the carrying amount of the relevant asset.

Depreciation is calculated on the straight line method at the following rates to write off the costs of the assets over their estimated useful lives.

Furniture, fixtures and equipment 15% p.a.

(b) Related company

A related company is a company in which one or more of the directors of the company have a beneficial interest or is in a position to exercise significant influence over the company.

(c) Revenue recognition

Entrance fees from members are recognised in the financial year of receipt.

Annual subscription fees are recognised on a time proportion basis.

Interest income is recognised on the time proportion basis taking into account the principal outstanding and the effective rate of interest applicable.

(d) Foreign currencies

Transactions in foreign currencies are translated at exchange rates ruling at the transaction dates. Monetary assets and liabilities in foreign currencies at the year end are translated at rates of exchange ruling at the balance sheet date. All exchange differences are dealt with in the income statement.

4 TAXATION

Provision for Hong Kong profits tax has been made in the financial statements at 16% (2002:16%) of the estimated assessable profits for the year.

The taxation charges is made up as follows:

	HK\$	2002 HK\$
Provision for the year	4,617	20,565
Over provision for previous year	(2)	-

On behalf of the Board

Chairman
HONG KONG, 22 October 2003

**REPORT OF THE AUDITOR TO THE MEMBERS OF
HKCFP EDUCATION LIMITED
(Limited by guarantee)**

I have audited the financial statements set out on pages 77 to 80 which have been prepared in accordance with accounting principles generally accepted in Hong Kong.

Respective responsibilities of the Directors and Auditor

The Companies Ordinance requires the Directors to prepare financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently.

It is my responsibility to form an independent opinion, based on my audit, on those statements and to report my opinion to you.

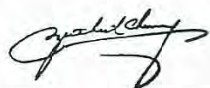

Basis of opinion

I conducted my audit in accordance with Statements of Auditing Standards issued by the Hong Kong Society of Accountants. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

I planned and performed my audit so as to obtain all the information and explanations which I considered necessary in order to provide me with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. In forming my opinion I also evaluated the overall adequacy of the presentation of information in the financial statements. I believe that my audit provides a reasonable basis for my opinion.

Opinion

In my opinion, the financial statements give a true and fair view, in all material respects, of the state of affairs of the Company at 31 March 2003 and of its results for the year then ended and have been properly prepared in accordance with the Hong Kong Companies Ordinance.
